Request for reconsideration and/or petition for review of refusal to enter entry of  
amendment after final

Commissioner For Patents  
Box AF  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Applicant again requests entry amendment after final, as originally filed on June 25, 2010. This amendment was refused entry in an advisory action mailed July 26, 2010. Hence, this petition is being filed within two months of the action complained of.

The amendment after final suggested some new changes to the claims which corrected their form. The advisory action in fact agreed that the changes in that amendment overcame certain rejections. Hence, that amendment clearly did place the case in better condition for appeal. Moreover, the advisory action did not indicate that the amendment raised any new issues, or that it presented additional claims or any other ground.

In fact, the only stated reason for refusing entry of the amendment was the apparent reason that the examiner disagreed with the arguments regarding the rejections based on 35 USC 103.

See the following screenshot from the advisory action.

Continuation of 11. NOTE: Applicant's amendment filed on 06/29/2010 would overcome the previous rejections based on U.S.C. 112 and U.S.C. 101. However, Examiner respectfully disagrees with the arguments regarding to the rejections based on U.S.C. 103.

Applicant respectfully suggests that since this amendment place the case in better condition for appeal, and did not raise issues, that the amendment should have been entered after final. Entry of this amendment, in order to reduce the number of issues on appeal is believed appropriate and is respectfully requested.
